Re: Health Information Management / Coding Position

Dear Hiring Manager,

I am a Registered Health Information Technician (RHIT) with an Associate of Applied Science in Health Information Management Technology from Columbus State Community College. I am seeking an entry-level HIM or coding role where I can apply my training in ICD-10-CM/PCS and CPT/HCPCS coding, release of information, compliance, and healthcare data analysis.

Through the OHIMA Virtual Internship Program, I completed hands-on practicum training in inpatient and outpatient coding, documentation review for accuracy and specificity, HIPAA-compliant release of information procedures, and quality improvement reporting. I bring meticulous attention to detail, a strong compliance orientation, and consistent dependability to every task I take on.

I would welcome the opportunity to bring these skills to your team and am happy to discuss my qualifications at your convenience.

Sincerely,

Suzanna Bolich
